

FUND JOBS NOT WAR!

Beyond War, A New Economy Is Possible

\$728 billion military budget vs \$50.7 billion for education (FY2011)

"We have guided missiles and misguided men." Rev. Martin Luther King, Jr.

Our communities are in crisis and wars abroad are killing us.

More than \$1.05 trillion has already been spent on the wars in Iraq and Afghanistan – not including care for our veterans or paying off war debts. Nearly 5,700 of our nation's young men and women have been killed: more than 1 million Iraqi and Afghan civilians are dead. Countries are destroyed while our communities go bankrupt.

Every year hundreds of billions of our tax dollars are poured into weapons systems we don't need, nuclear weapons that could destroy us all, and over 700 U.S. military bases around the world.

Millions of people are out of work. Housing foreclosures, underfunded schools and collapsing social infrastructure are on the rise while our environment is on the brink of disaster. Ending the wars in Afghanistan and Iraq is the first step in re-ordering our priorities and repairing the damage done around the world.

Endless wars do not make us secure or safe. They weaken our economy and hurt our communities.

There is Another Way

Working together we can create the change we need. Join us as we call on the Obama Administration and Congress to stop spending our tax dollars on useless weapons, wars and occupation, and instead to invest in urgent social programs and infrastructure.

It's time to move the money out of bloated military budgets and deadly wars.

It's time to bring our troops and war dollars home, now.

It's time to end war and rebuild America:

- Green union jobs programs
- Fully funded public education
- Healthcare for all
- Mortgage relief and affordable housing
- Re-build our infrastructure
- Environmental protection
- Full veterans benefits
- Relief for our city and state budgets
- Support for the vital social programs our communities need

Can your tax dollars be better spent? <http://costofwar.com/>

Jobs, Peace, Justice!

"A nation that continues year after year to spend more on military defense than on programs of social uplift is approaching spiritual death."

Rev. Martin Luther King, Jr.
